BRAINPORT INDUSTRIES

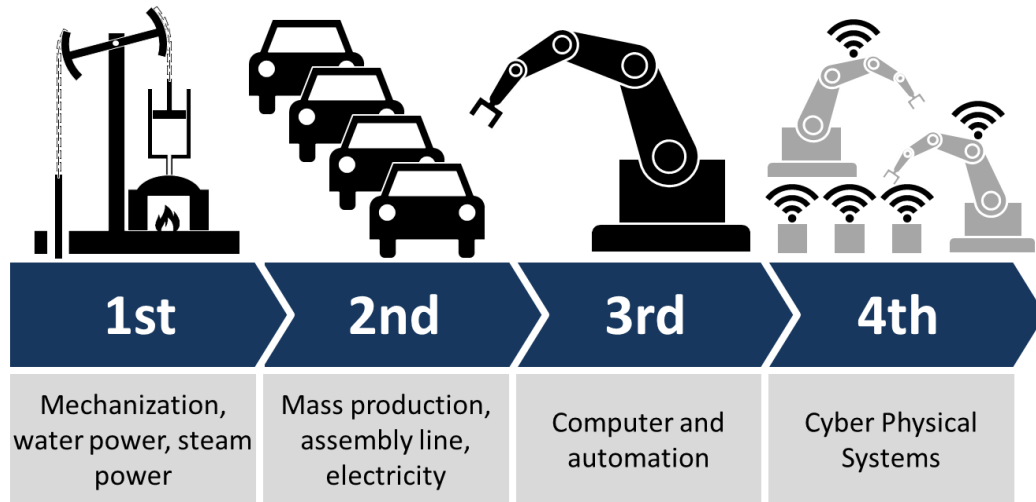

Program Lines

Brainport Industries initiates & develops projects in the field of:

- Human capital / Talent & Cooperation
- International Markets & Supply chain
- Technology & Manufacturing processes

Goal is to **accelerate innovation power & improve competitiveness** of Dutch (high tech) supply chain network.

Technology & Manufacturing processes

Industrie 4.0

Smart Industry

SMART INDUSTRY

National & Regional Smart Industry Program

The Brainport Industries logo consists of a black silhouette of a factory with three chimneys, followed by the text 'Brainport Industries' in a sans-serif font.

Brabantse Ontwikkelings Maatschappij

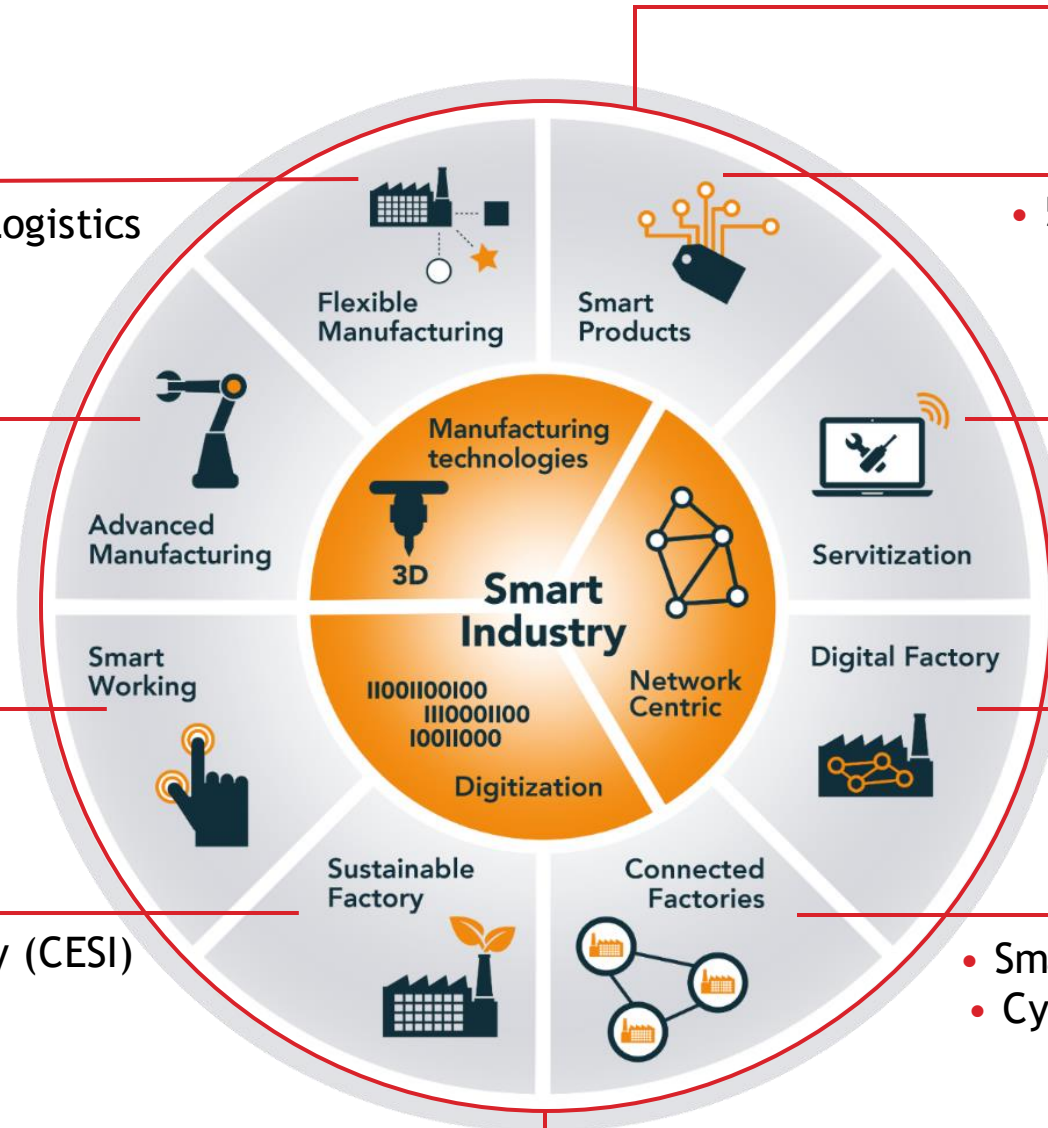

The BOM logo features a red triangle pointing right, followed by the letters 'BOM' in a large, bold, blue sans-serif font.

Provincie Noord-Brabant

Projectpartners

A grid of logos for various project partners, including SUMMA College, Fontys, machinefabriek DEVELK, KM/WE, SMART ROBOTICS, TU/e, ME, CORDIS, infor, Acknowledge, Brainport Industries College, DEMCON, SUPLACON, TNO, FAESGROUP, OMRON, NextDent, altran, LOGIC, norma, mkg, Zafeng, RIDDER, BOM, NEWAYS, Euro-Techniek, rexroth, teclab, @ignify, DOMICRO, ADMATEC, YASKAWA, total productivity, pwc, Bronkhorst, ACCERION, BEMET, RUBIX, kloekner metals, IJSSEL, Brainport Industries, de cromvoirtse, tradeInterop, ICT+, isah, ATTRIBUTES, FUJITSU, PERFECT, Additive Industries, HT, KE-works, VANRAAKSTAAL, ERTEC, avans, DMG MORI, data streams, FESTO, Berenschot, Etteplan|tedopres, ALLEN, FESTA, UNITO40, Profit, TOPIC, NTS GROUP, tomtom, CNC CONSULT, océ, GRENZBACH, VinciTech BV, Delphino, PULSEDCO, Ketenlink, luminis, MAD, easytrade, MaromeTech, Fraunhofer, FOUTRESS, Compumatica, SUPPLYDRIVE, Author-e, tradecloud, VISCON GROUP, INTERNATIONAL DATA SPACES ASSOCIATION, ECN, and verum.

BIC INNOVATION PROGRAM & PROJECTS

- Fieldlab Advanced Manufacturing Logistics
- Fieldlab Flexible Manufacturing

- K3D-AddFab (3D metal printing)
- Fieldlab Multi Material 3D

- FutureTec (Education & Training)

- Circular Economy in Smart Industry (CESI)

- High Tech Software Cluster

- 5G High Tech Application Center

- Data Value Center - SI

- Digital Factory of the Future

- Smart Connected Supplier Network
- Cyber Resillience Center Brainport
- Digital Innovation Hub AI

- New / Work in Progress: Pilot Manufacturing Center

7. De locatie

Brainport
Industries

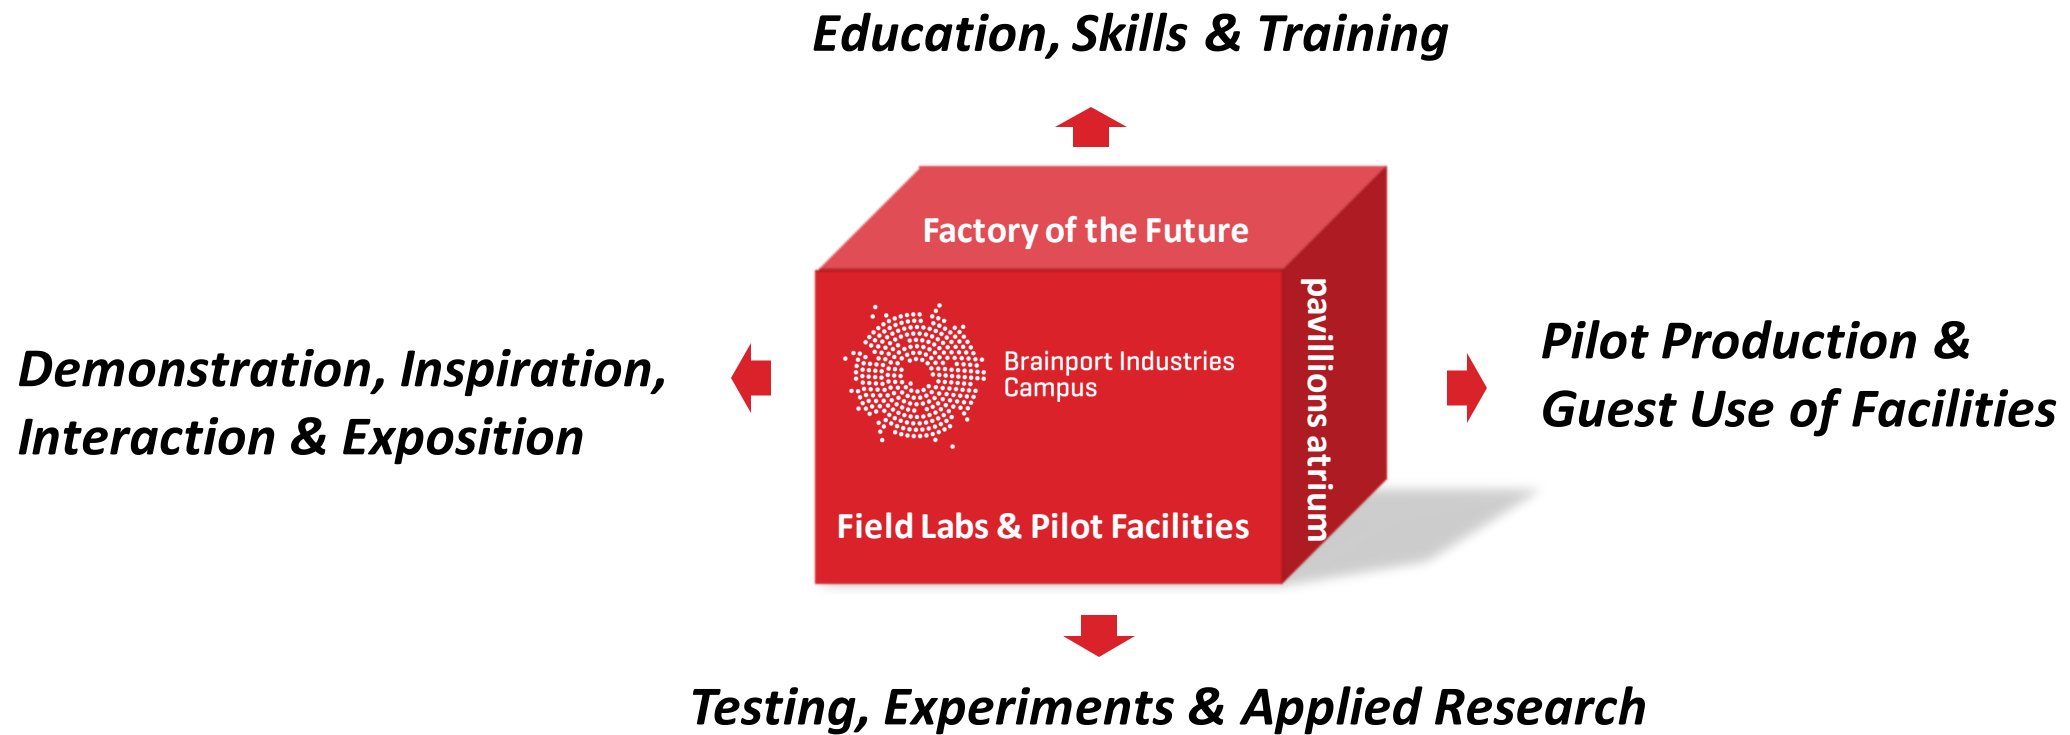

ATRIUM

- Main entrance for the building clusters
- Location for shared services and facilities
- Space for education and knowledge institutes
- Location for start-ups
- Logistics zone + storage under the atrium
- Meeting & inspiration place for employees, visitors and students
- Showrooms & Service boulevard

BRAINPORT INDUSTRIES CAMPUS

Multiple use of Assets in the 'Fieldlabs'

INNOVATION PROGRAM

Fieldlab Flexible Manufacturing

An eco-system that focusses on capitalising opportunities through flexible manufacturing and assembly solutions.

- Flexible production and assembly solutions
- Automated and flexible fieldlab
- Robotization of manufacturing processes

INNOVATION PROGRAM

Smart Connected Supplier Network

Platform for information exchange to accomplish an increase in productivity in the supply chain

- Data standard
- Information exchange
- Higher productivity in the supply chain

SCSN DEVELOPMENT TIMELINE

<https://smart-connected.nl/>

	2020	2021	2022
Organisation	Transition from project to SCSN Foundation.	NL: Strategic partnerships with branche organisations. EU: Strategic partnerships to accelerate growth.	
Services	Comprehensive SCSN message set for manufacturing industry.	EU: Develop and integrate additional (AI) products and services for supply chain optimisation, condition based maintenance, etc.	
Infrastructure	Fully operational IDS infrastructure for Service Providers.	EU: Extend trusted network with advance security features e.g. usage control and ensuring interoperability with other data spaces.	
Connections	Growth to 400 connected manufacturing companies.	NL: 1.000 connections EU: 250 connections	NL: 2.000 connections EU: 1.000 connections
Service providers	Growth to 10 approved SCSN Service Providers.	NL: 15 Service Providers EU: 5 Service Providers	NL: 20 Service Providers EU: 20 Service Providers

K3D Addfab metal printing

3D Metal Additive Manufacturing technology- and expertise centre focussed on industrialisation of 3D metal printing

- Industrialisation
- Quality management
- Industrial applications

Brainport
Industries

MetalFAB
Industrial Additive Manufacturing System

INNOVATION PROGRAM

K3D Addfab metal printing

PARTNERS

Wat kan K3D-AddFab voor u betekenen?

- Kennis en inspiratiesessies
- Trainingen en opleidingen
- Begeleiding bij het vinden en zoeken naar de businesscase
- Een groot ecosysteem
- Productie van prototypes, kleine series of middelgrote series
- 3D printen in RVS, Aluminium en Gereedschapstaal
- Korte levertijden

INNOVATION PROGRAM

Fieldlab Multi Material 3D

Een eco-systeem dat zich richt op industriële multi-materiaal 3D geprinte mogelijkheden.

- Applicaties
- Pilotlijnen binnen een fieldlab
- Onderzoek
- Automatisering van 3D print processen

INDUSTRIO

Advanced Manufacturing Logistics

Hotspot for smart logistics in manufacturing

- Smart logistics
- Mobile robots, mobile cobots, AGV's , SGV's,
- Simulation (business and technical)
- Smart automation (IT connectivity and integration on plant and multi-plant niveau)
- Supply chain orchestration

Advanced Manufacturing Logistics

WP 1: INDUSTRIAL AUTOMATION

Mobile Robotics (warehouse logistics, generic)

Mobile Robotics (manufacturing logistics, usecase-specific)

WP 2: SIMULATION

Digital Twinning, Manufacturing Design

Smart Planning & Control

WP 3: INTERCONNECTIVITY

Horizontal- & Vertical Integration

WP 4: INDUSTRIAL LOGISTICS

Tracking & Tracing

Smart Packaging

INNOVATION PROGRAM

Digital Factory

- Access to data at BIC and other locations
- Development of a blueprint for the Digital Factory of the Future, focussing on:
 - Collecting and using data within one factory
 - Controlled sharing of data in the chain with customers, suppliers and providers of new services
- Testing, research and development environment
- Development of new business models

DATA SHARING

- ▶ Smart Connected Supply Network
- ▶ International Data Spaces
- ▶ Connecting customers and suppliers

Powered by

DIGITAL FACTORY

- ▶ Smart manufacturing equipment
- ▶ Zero programming
- ▶ Human-robot collaboration

Powered by

DIGITAL TWINNING

- ▶ Simulation of equipment and product lines
- ▶ Equipment effectiveness and KPIs

Sneak preview:

Roadmap based on Smart Industries Transformations

DRAFT ROADMAP FACTORY OF THE FUTURE 2020-2024

Cluster / Theme	Goal	How and focus technology areas
Smart Manufacturing Smart Production Technologies	Develop new applications with emerging Production Technologies	<ul style="list-style-type: none"> Demonstrate and innovate on existing production technologies with focus on industrializing Additive Manufacturing technologies and applications including (future integration) Electronics & Materials Develop Augmented Reality standards to support production, assembly and logistics
Smart Manufacturing Smart Assembly & Robotisation	Implement flexible Automation and Robotisation for high mix low volume assembly	<ul style="list-style-type: none"> Innovate in fieldlabs and implement Human/Robot collaboration Develop standards to enable Modular Manufacturing Apply Digital Twinning of Manufacturing
Smart Supply Network Smart Factory Logistics	Implement Digitization and AI to optimize factory Operations	<ul style="list-style-type: none"> Develop
Smart Supply Network Smart Connected Supplier Network	Create an Agile, Global and Connected supply Network to shorten time to market	<ul style="list-style-type: none">
Smart Working Data analytics & Artificial Intelligence	Optimize End-to-End production and supply chain Work flows via Digitization	<ul style="list-style-type: none"> Develop simulation techniques Develop Model Based Engineering platforms Develop support platforms for monitoring/analytics
Smart Working Training & Education	Deploy smart industry related Skills and Competences (life long learning)	<ul style="list-style-type: none"> Use VR for operator (or student) training and instructions Develop a Toolbox for (human) Operator 4.0 and explore needs, roles & tools for the I4.0 operation (including digitization skills, human-robot cooperation, factory automation) Deploy Circular Design thinking

Presentation & Publication: November 26, 2020

INNOVATION PROGRAM

Upcoming Technology Updates 2020 / 2021

Events	Date
Brainport Industries conference 2020	October 1, 2020 (ONLINE, invitation only)
Technology Update XL (all fieldlabs / projects @BIC)	November 26, 2020 (ONLINE, free after registration)
Technoloy Update “Multi Material 3D Printing”	December 17, 2020 (ONLINE, free after registration)
Technoloy Update “Flexible Manufacturing”	January 21, 2021 (ONLINE, free after registration)
